20 M. P.'s Quell Red Uprising in Short Order

By The Associated Press.

COBLENZ, March 28.—A Communist uprising occurred this morning in the American bridgehead area, at Montabaur, six miles northeast of Ehrenbreitstein. A riot call was answered by the Provost-Marshal, and American military police were dispatched to restore order. It took twenty M. P.'s only a few minutes after their arrival at Montabaur to put down the disorders. They arrested the leader and confiscated a quantity of Communist literature. No further trouble is expected.

BERLIN ARMS FOR TROUBLE IN STRIKE EXPECTED TO-DAY

Communists Disarm Police in Bitterfeld; Bandits Rob Bank; Reds Fight Armored Cars.

SEVERAL ARE KILLED

Reds Still Have the Upper Hand in Leuna, as Police Fear Reds Will Blow Up Big Factories.

HALLE REPORTED QUIET

American Reporters Arrested in Search for Russians—English Papers Blamed by Cops for the Insurrection.

By The Associated Press.

BERLIN, March 28.—The Government to-night ordered Wilhelmstrasse closed to all traffic in anticipation of possible disturbances to-morrow, when the Radicals hope to tie up the big industrial and other plants in a general strike.

Government troops to-night are occupying the street, all the approaches to the Foreign Office and other Government buildings are barricaded with barbed wire entanglements.

Late reports from middle Germany say that the situation is unchanged. There have been sporadic outbreaks at points not yet occupied by the troops and which are temporarily held by rioting bands which have eluded the security police in the roundup that is now going on in the province of Saxony.

The Communists in Düsseldorf and nearby towns placarded the walls with a summons to a general strike, but in Hamburg only was there any response.

Mettmann, a small industrial town, is in the hands of some 500 Communists. Wolfenbüttel and Wolfen are being occupied by Communists, who are commandeering food and money.

MARTIAL LAW IN FORCE AS HALLE FACES STRIKE

Red Leader Says Fight Is Aim of Uprising.

Special Cable to THE NEW YORK HERALD.

HALLE, Saxony, March 28.—The Communists in the Halle district are still attempting to force a general strike and martial law has been declared. This New York Herald correspondent asked a bomb squad organizer of the Red army the tactical object of such a policy and was being followed by the Communists.

"We are getting the burghers thoroughly frightened without loss of life, and we are silencing the dirty rag which are misrepresenting the proletarian revolution," he replied.

The operations about the Leuna industrial works, still in the hands of the Communist strikers, are like throwing matches around powder kegs. The director of the plant said that the ammonia works were almost full. Unless the largest of these vats is emptied by to-morrow an explosion there is almost inevitable. A momentary break at the connecting station, where all the pipes are centred, would wreck the works and the surrounding villages. The restoring of the works also would be disastrous. It would require three weeks for assembling the chemicals and the reconstruction of the entire plant before production would again be possible.

Engineers and technical and office workers abstained from joining the revolutionary workers' committee of the Revolutionary Committee of Workers, but affirmed their neutrality when the directors gave way before the Communists. Kempin, leader of the Leuna Communists, remains obstinate, despite the possibility, through negotiations and compromise, of avoiding disaster. Meanwhile the engineers and the older workers in the plant, under the Leuna Council, are voluntarily performing the labor necessary to keeping the works in operation.

The Red leaders admit that the non-revolutionary workers recognize the necessity of maintaining the works, and the Council of Work is seeking to effect a compromise between the employers and the revolutionary leaders, with the object of avoiding a conflict which would imperil the plant. The leader of the Council of Work, who is a Communist, confessed that he believed the Red tactics were insane.

SITUATION IS CRITICAL IN SOME SAXON TOWNS

Communists Rampant, but Authorities Are Active.

By The Associated Press.

HALLE, Germany, March 28.—The Communists still have the upper hand in Leuna, the police showing no intention to attack them for fear that the big factories will be blown up, which the workmen threaten.

At Halle the situation is quiet, according to the police, being due to postponement of the Communist plans, which provided for the capture of the surrounding towns first. The intention then was to march into Halle and gain control of the strategic and industrial centre of the whole province. The police are not yet ready to say that the Communist movement has failed, and are still nervous over the

600 U. S. COWS FOR GERMANY ROUSES LEGION IN MARYLAND

BALTIMORE, March 28.—Unfavorable comment was voiced in American Legion circles here to-day when it was learned that twenty-seven cars carrying 600 South Dakota milk cows are en route to Baltimore to be shipped to Bremen for the German Government.

In view of protests against such shipments by other legion bodies, Gen. Charles F. Macklin, head of the organization in Maryland, will call a meeting of the Maryland executive committee. According to information received here, the American steamship West Arrow is nearing Baltimore to load the cattle for Bremen. The Bull Steamship Line, of which Capt. Duke Adams if local representative, is agent for the ship and will have charge of loading.

Recent despatches from the West were to the effect that certain cattle raisers have banded together to make free gifts of cattle to German citizens. They announced that the intention was to aid starving children. This action, according to despatches, was protested by American Legion bodies on the ground that America is at war with Germany and that all such manifestations of sentiment for Germany should be viewed as hostile until thoroughly investigated.

"I have no information concerning such shipment and have not sufficient information as to its status to say what action the Maryland Legion is likely to take," said Gen. Macklin. "However, the matter, no doubt, will be investigated, and I will not hesitate to call an executive meeting to consider it."

SEEK MORE BODIES OF GEORGIA PEONS

Eleven Found and Eight Other Negroes Yet to Be Accounted For.

FEDERAL INQUIRY ON

Special Court Session Likely to Press Charges Against Plantation Owner.

Special Despatch to THE NEW YORK HERALD.

MONTICELLO, Ga., March 28.—With the bodies of eleven negroes already uncovered either on the murder farm of John Williams in Jasper county, or dragged from out of the Alcovy and the Yellow rivers, investigators in this wholesale murder are now working on the theory that there may be other victims.

It is pointed out that on the date of the first murder admitted by Clyde Manning, who says he acted on the orders of his master, John Williams, there were nineteen other negroes at work on this plantation, and it is said all these are now missing.

Whether they have managed to make their escape from the alleged peonage conditions, or have been hidden, or perhaps killed is the problem on which the authorities are at work.

There are agents of the Federal Government as well as State officers present doing their best to get all the evidence possible. Some of the local officers scout the theory that there have been more murders and are inclined to the belief that the negroes have escaped, but other officials are not satisfied until a thorough investigation has been made.

Other developments in the case to-day was an effort by Solicitor Brand of the Stone Mountain Circuit to have the case of Williams put on trial in Newton county Thursday, but this was beaten on the objection of counsel for the defense, who argued insufficient time for the preparation of the case. That, according to the judge, does not mean, however, that the case will go over until the July term. A special session can be called if necessary, he said.

Newton county is now making every effort to take charge of the cases, although Jasper has an equal claim. Newton says its officials have the evidence to convict and are ready to go into the case on Monday.

Another development was the allegations of a plot on the part of certain negroes to stir the whites up against the negroes, and the receipt of a number of threatening notes alleged to have been written by whites by negroes. It was reported that one white man had been arrested and had confessed, but this had not been corroborated.

\$50,000 BLAZE TAKES RESORT AT ROCKAWAY

Solomon's Castle Once Was Fine Country Home.

The Long Island shore for miles on either side of Rockaway peninsula was brilliantly illuminated early this morning by a fire that destroyed the old building known as Solomon's Castle, formerly a country residence, at Rockaway. The glare of the fire was reflected to sea, and for more than an hour telephone calls from Long Island and even New Jersey residents and radio queries from ships far out at sea continued to ask Police Headquarters what was burning.

Three alarms were turned in, but the firemen who responded could not prevent the complete destruction of the building. The high wind helped sweep the flames through it.

According to the police, Solomon's Castle, once the country residence, but more recently a dance hall, is owned by Richard Philadel of 11 Broadway. The loss was estimated at \$50,000.

45 RESCUED IN LIFEBOAT.

One Other Boat From the Uebera Still Missing.

RIO JANEIRO, March 28.—One of the missing lifeboats from the Lloyd Brasileiro Line steamer Uebera has been picked up at sea with forty-five persons in it. The Uebera went on the rocks off the coast of Maranhão, Brazil, last week.

The British steamer Justic took off some of the passengers and crew, but two of the lifeboats left the stranded vessel before the Justic arrived on the scene.
